Full-Stack Developer

Committed to lifelong learning. My focus remains on crafting scalable, logical solutions in the ever-evolving tech landscape.

WORK EXPERIENCE

Pixel Media • La Vega • 2023 - 2026
Product design and sales company
Frontend / Full Stack Developer

- Developed an Amazon-style e-commerce platform that lets the company sell its products online and design them virtually.
- Improved the platform's speed and efficiency, making purchases easier for users and growing the customer base with shipping to other cities.
- Developed web applications with React and Next.js, with performance and SEO optimization.
- Designed responsive, mobile-optimized interfaces with Material UI and Ant Design.
- Integrated REST APIs.
- Developed backend features with Node.js and Express.
- Managed MongoDB, PostgreSQL, and Oracle databases.
- Implemented JWT-based authentication.
- Integrated Stripe payment gateways.
- Version control with Git; worked under the Scrum methodology.
- Application performance optimization and maintenance.

PROJECTS
